CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA, TUESDAY, MARCH 1, 1921

10 CENTS

MONESSEN HOTELS RAIDED BY PROHIBITION AGENTS

Some Liquor Secured at a
Number of the Places
Visited by Officers

STATE POLICE HELPED IN RAID

Monessen hotels were visited on Monday afternoon, by a squad of prohibition officers, reinforced by a detachment of State Police. A quantity of liquor was found at a number of the hotels and confiscated, while at others it is said the prohibited stuff was made away with before the agents visited them, although the officials said they had affidavits against all of the hotels operating in that borough.

Search warrants were obtained in Pittsburg by Prohibition Agent C. C. Gregg on Monday morning from United States Commissioner Roger Knox, and bearing these the agents came to Monessen on an afternoon train. They were S. M. Palmer, A. A. Silvis, A. E. Kemmerling, C. J. Seitzer and Clyde Glass. At the Monessen station they were met by six State Police under command of Sergeant Jimcoski from the Greensburg barracks. The agents and police immediately divided, one agent and one policeman going together, and a round of the hotels was begun. The hotels visited were completely gone over, even guest rooms being invaded and search made for liquors. The quantity obtained varied from one-half pint to 16 quarts. At some of the hotels nothing was found but if it is said there was quite a lot of activity in "covering up," and bottles of liquor disposed of by removing them from the building.

The agents left for Pittsburg on the 5:22 train in the evening, having with them two bushel baskets filled with bottles of liquor they had obtained in the raid. They also notified all of the hotel men to appear in Federal Court in Pittsburg at a time to be designated later and of which they would be duly notified.

One "stunt" attempted by a couple of Monessen residents would have made them the possessors of the 16 quarts of liquor obtained at one of the hotels had the plans gone through successfully. A State Policeman was guarding the basket containing the 16 quarts. He walked away to get a lunch and this interval was taken advantage of by a couple of habitués, who went to the cellar, filled a bushel basket with empty bottles and placed a paper over them to resemble the basket filled with the liquor. Just as they were about to make the change and their "get-away," four other members of the raiding squad entered the room and quered their game. It was a narrow escape for the liquor, while the conspirators had nothing but their labor for their pains.

Hemstitching neatly and promptly done. White Sewing Machine Co., 423 Fallowfield Avenue. 22416p

WILL DEDICATE ON MEMORIAL DAY NEXT

Monongahela expects to dedicate its memorial erected in honor of the men who served in the world war, on Memorial Day next. The base of the monument has been in position for some time, but the figure of Victory, which is to surmount it has not yet been placed. This will be done some time soon, and then arrangements will be made for the dedication of the memorial.

GETTING READY FOR BIG FORUM MEETING

The next regular Forum of the Chamber of Commerce will be held on Friday evening, March 4th at eight p. m. in the Municipal building. The important matter of "White Way Lighting" will be discussed at this meeting. Every citizen, man and woman of Charleroi is invited to attend this meeting. The committee on Street Lighting consisting of W. H. Milliken, chairman; R. L. Barnhart, Michael Rosenbloom, D. G. Callihan and George Leith will meet this evening at eight o'clock to make preliminary plans for the Forum meeting. The committee would like to have everybody attend this meeting prepared to discuss on what streets the White Way Lighting ought to be placed; the number of hours the lights should burn; how far apart they should be placed; how high should the post be; should the lamps be placed opposite each other or staggered; should the property owners or the merchants pay the initial installment; how shall the light be maintained; and what candle power should they be.

The Housing Committee, of which Bruce K. Barnett is chairman, will meet at eight o'clock on Thursday evening of this week.

The Committees on Borough Expansion; parks and playgrounds; and the Forum Committee will meet next week.

PETITION FOR PAROLE OF MISS ELLA GOLLOCK

A petition signed by a large number of residents of Charleroi and citizens along this section of the river, asking for the parole of Ella Gollock, was presented to the court at Washington on Monday by Attorney David M. McCloskey. Miss Gollock entered a plea of guilty to a charge of felonious assault and battery, on Thursday last, and was sentenced by Judge McIlvaine to the State Industrial Home for Women at Muncy, in Lycoming county, a new institution.

In presenting the petition Mr. McCloskey stated that the mother is a widow and dependent on her children for support. During the war a son

Firemen Elect Officers To Serve for Coming Year

The annual election for officers of the Charleroi Volunteer Fire Department, was held at the firemen's room in the borough building, Monday evening. The attendance was unusually large, owing to the contest for the position of Chief, which has been waged for a number of weeks. Chief Fleming has held the position for about fifteen years, but this year determined opposition appeared, which stirred up a great deal of interest among the members and caused an unusually large attendance.

After the ballots had been counted, it was found that the following persons had been chosen to conduct the affairs of the company for the ensuing year, which will begin on the 28th of March, the last Monday in the month:

President, Carl McGuire; first vice president, Bruce Hays; second vice

PAGE MILL OPENS

AT LOWER WAGES

A wage readjustment took place at the plant of the Page Steel and Wire company in Monessen this morning. The company having announced a wage reduction of 20 per cent. This reduction was made in every department. The rod mill began operations, and additional men were placed at work in the wire mill. The plant is now operating on about a 70 per cent basis, giving employment to over one thousand men.

The gates of the plant were besieged by hundreds of men this morning seeking employment, but all of them could not be accommodated. Many of the applicants had been out of work for several weeks, and were ready to go to work at the reduction, which they accepted as inevitable in the readjustment of industrial conditions now under way.

CARNEGIE "CLAN" IS ORGANIZED

On Friday evening the Monongahela Valley Clan of the Carnegie Institute of Technology held a banquet at the Elks Club, Charleroi. Fifteen Techites were present and enjoyed the news brought from the Alma Mater by "Doc" Marks and Mr. Bateman, the speakers of the evening. At this meeting an organization of the Clan was effected and the following officers were elected: K. K. Knaell of Charleroi as President; J. P. Jones of Belle Vernon, Vice President; and Florence L. Lytle of Monessen, Secretary. The clan plans to meet once a month and any Tech student in the vicinity should join them.

Mr. Lee Luken, Expert tailor representative of the Globe Tailoring company will be at Berryman's Wednesday and Thursday, March 2nd & 3rd, showing their complete line of spring fabrics. Now is the time to get measured for your Easter Suit.

226-t2

president, C. H. Williams; secretary, Robert Craig; treasurer, A. M. Marshall; Chief, H. M. Lowstetter; first assistant chief, Carl McGuire; second assistant chief, Roland Gass; trustees, C. H. Williams, W. H. Spencer and O. Henderson; auditors, W. Balmer, C. Marshall, G. Hudspeth; house committee, Ed. Wilson, Jos. Hancock, B. Hays.

During the progress of the meeting Chief Fleming made a report of the automobile contest, which netted the fire company about \$4,500. The total receipts were over \$6,100, while the machine cost \$1,500.00 leaving \$4,500 for the new truck fund. In addition there is a balance in the general treasury.

After the business of the evening had been disposed of, the house committee served lunch, about sixty places being furnished.

OFFER TOWNSHIP

FINANCIAL AID

A stretch of brick road in Carroll township, between Roth brewery on Taylor's run and the city line of Monongahela is in bad shape, and has been the cause of considerable complaint being made to the County Commissioners. However, the county officials have told all those making complaint that the highway in question is not under their jurisdiction, but belongs to Carroll township, which municipality is charged with its repair and upkeep.

However, it develops that the road supervisors of that township have stated they have not sufficient money to take care of this road and place it in proper condition for comfortable travel. The section of road mentioned is not in any way dangerous, but the bricks have been so badly broken that a trip over this section of highway is a nightmare to automobile and truck drivers.

The Commissioners, though, have expressed a desire to lend assistance to the township in this matter, and have made a tentative proposition that they will undertake a 50-50 proposition, the county to furnish one-half the funds and the township the other half. This proposition has not yet been made official, but if the supervisors of the township express a willingness to accept, it will likely be made a matter of record and work of repair placed under way.

WOMEN WILL RECEIVE SAME PAY AS MEN

Women in the employ of Allegheny county performing the same grade and amount of work, and working the same number of hours, as men in the same department, will receive the same pay. This action was taken by the County Salary Board at a meeting held on Thursday of this week.

As long as the supply lasts, 59c COLUMBIA RECORDS Dance, Song and Comic Records. Sale begins March first. Schroeder Piano Company. 304-305 Fifth Street, Charleroi, Pa. 223tf

PROMISING OUTLOOK FOR ACTUAL WORK ON RIVER ROAD

GOOD ATTENDANCE AT CHURCH SERVICES

At the M. E. church last night the Rev. George Grant of Belle Vernon, preached a very able sermon to the congregation. His subject for the evening was "Wilt Thou be Made Whole." There was a good attendance and Rev. Grant's talk was much enjoyed. This evening services will be conducted and will be known as Official Board night, this organization of the church attending in a body.

GAS INCREASE HITS PT. MARION FACTORIES

The glass making industry in the Point Marion district is seriously and probably decisively affected as a result of an increased gas rate to consumers, determined by West Virginia gas supply agencies. One of Point Marion's factories has already completed plans for removing to another district.

It is said the increased rates determined for Pennsylvania consumers by West Virginia supply concerns will result in the ultimate abandonment of the glass making industry in the Pt. Marion district unless there is an immediate adjustment of rates charged consumers, according to information obtained recently from prominent citizens of that district.

West Virginia agencies have determined the rate to their Pennsylvania customers at 45 cents per thousand cubic feet. The West Virginia consumption rate has not been changed and is still fixed at 32 cents. At a rate of 45 cents it will not permit glass concerns to longer operate in the up-river district.

As a result of this condition the officials of the Nilan plant are considering the advisability of removing their plant to Saxville, near Punxsutawney, where the gas rate would permit the company to manufacture and compete in the general market.

Ruth Melnyzer.

Ruth, daughter of Mr. and Mrs. George Melnyzer, died at the home of her parents in North Charleroi at 7:30 o'clock this morning, aged 5 years. Funeral services will be held Thursday afternoon at 2 o'clock, with interment in Monongahela cemetery.

BIG MOTORS PLANT

RUNNING HALF TIME
All of the automobile plants owned by the General Motors company are now operating on a fifty per cent production basis. The General Motors company normally employs 100,000 men.

Mr. Lee Luken, Expert tailor representative of the Globe Tailoring company will be at Berryman's Wednesday and Thursday, March 2nd & 3rd, showing their complete line of spring fabrics. Now is the time to get measured for your Easter Suit.

226-t2

Releases Expected to Be Prepared and Signed This Week

TO ABOLISH GRADE CROSSINGS

While in Washington on Monday, Harry W. Scott, chairman of the highways committee of the Chamber of Commerce, in company with Burgess S. L. Woodward, called at the Commissioners' office with reference to certain details in connection with the improvement of the Speers-Coal Centre road. The question of securing releases for damages that might be incurred at certain points was discussed, and it was promised that Howard W. Hughes, solicitor for the Commissioners, and George Chaney, county engineer, would be here on Wednesday, prepared to meet certain property owners, with a view of securing the desired releases.

It developed during the visit that the Public Service Commission would hold a hearing in the City-County Building, Pittsburg, on Thursday, March 24 at 9:30 a. m., upon the question of adoption of plans and specifications which have been prepared by the State Highway Department providing for the abolition of three grade crossings at points where the State Highway route No. 268 crosses the tracks of the Pittsburg & Charleroi street car line, between Dunfery and Allentown.

At that time testimony will be taken upon the matter of apportionment of cost and expenses incident to said abolition, including damages to adjacent property owners, but no testimony will be taken at said hearing relating to assessment of damages to provide property taken, injured or destroyed by said abolition.

It has been promised that a decision will be handed down by the Commission within ten days after the hearing, so that by early in April all the preliminary details with reference to beginning activity on this proposed highway should be taken care of, and advertisements published asking for tender of bids for construction work. The prospects are very bright at this time that before the summer months begin the road should be under contract and the construction company at work on the project.

STRESS FOR FI-FI HAS ARRIVED

Miss Mabel E. Bush, who is to direct the production of "Fi-Fi" to be given in the high school auditorium, on the evenings of March 15 and 16, arrived in town yesterday afternoon, ready for immediate action. After conferring with Prof. I. T. Daniel, rehearsals for the different groups of participants were arranged, and the work is now on in earnest. Miss Bush came direct from Shamokin, Pa., where she staged "Fi-Fi" with most gratifying results.

Your EASTER Suit

Special Made-to-Measure OPENING AND DISPLAY

MR. LEE LUKEN, the GLOBE Man, will be with us Wednesday and Thursday, March 2nd and 3rd, with a complete stock of Woolens to show and take orders for this well known and reliable line of made-to-measure Suits.

If you want to wear that Suit for EASTER you had better come in and let him measure you.

This will be an exceptional opportunity for you to see the new fabrics for Spring. See the special line at

\$42.50

While he will show many patterns in a cheaper grade as well as some finer woolens, the line at \$42.50 will be a special assortment. Get your order in now for Easter, as it comes early this year, on March 27th. The ready to wear Men's Suits will be delivered late this season on account of a strike now on, and all orders were placed too late for very early delivery at best.

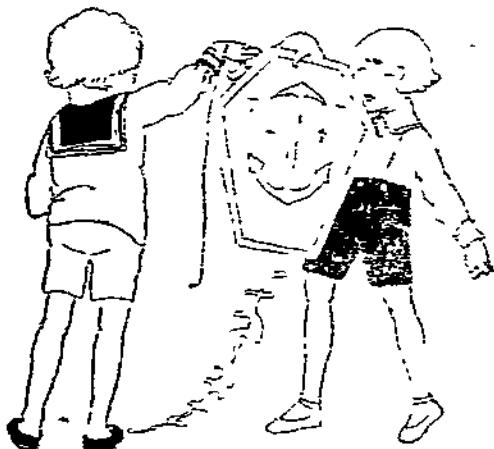

Presented for 2 days only Mr. Lee Luken, the tailoring expert, will be with us.

Special Display of Suits FOR TOTS

We have received and placed on display in our window, the entire sample line of the "Blue Jacket" Tailoring Company of Fifth Avenue, New York. This line of hand tailored suits will be on display for one week and we would be pleased to show you this fine assortment of Kiddle's Suits, and take orders for any size you might need. This will be an exceptional opportunity for you to see all the different styles they make for the line is a little too good for us to carry the full assortment in stock. This showing is for one week only. "Blue Jacket" Tailored Suits for Tots.

MUST MAKE REPAIRS TO DONORA ROAD

Complaint has been made to the Commissioners about the condition of certain parts of the improved road between Donora and Monongahela, which are said to be in bad shape and in need of immediate repair. This road was only completed and thrown open to the public last fall, but it has not stood up under the traffic of the past few months. As a consequence the Commissioners are of the opinion that in certain places along the road whole sections of concrete will have to be taken up and replaced with new material, if the road is to be maintained in any kind of shape. It is likely this will be done some time this summer.

The road was built by a contractor from Greensburg, and the work of construction was dragged out over the summers of 1919 and 1920, which caused a great deal of severe criticism on the part of citizens who live along the road, as well as in Don-

ora and Monongahela. However, there appears to be nothing to do at the present time except to wait until favorable weather in which to make the repairs which are absolutely necessary to keep the road in condition for the heavy traffic which passes over it every day.

PETITION FOR PAROLE FOR MISS ELLA GOLICK

(Continued from page one.) enlisted in the army and Miss Golick entered one of the local glass factories, and did the work usually performed by a man. After being discharged from the service the brother was injured in an accident, and is still unable to work.

While Judge McIlvaine did not refuse the parole, he explained that the state home at Muncy is not a penal institution, and he seemed to be of the opinion that she would be better off there for a time. However, he stated that he would take the matter under advisement.

SAY CLYDE MINE WILL NOT CLOSE DOWN

Reports from up-river say that Clyde mine, at Fredericktown, will not close down, as reported last week. According to officials of the mine located at Fredericktown the mine is expected to be in operation again this week.

Mrs. Ray Morgart who underwent an operation at the McKeesport hospital has returned to her home. Mrs. Morgart is getting along as well as can be expected.

LOST—Knights of Pythias charm. Finder please return to Charleroi Hotel. 226-15p

MAN "THE CHEAPEST ANIMAL"

In West China He is the Universal Bearer of Burden, for Simples of All Reasons.

Not a wheeled vehicle is seen in all west China except the wheelbarrow, near Cheng-tu. Thousands of tons of commerce pass over these highways annually, all on the backs of men; and as we approach the centers of population we find the sewage and the water of the city are on their backs also.

The "Back of Man" is the unwritten epic of this land; for, Atlas-like, it bears the world upon it. The coal and other minerals from the mountains; the cities, with their walls and towers and all that they contain; the wood on the hills and the grain of the plain—all, together with the pigs on the way to market and the men who can afford it—all have ridden or ride upon the back of man.

The reason is not far to seek. It is purely economic. Man is the most efficient machine and the cheapest animal, and so it comes to pass that he is the universal animal, the omnibus of commerce and the pack mule of the race.

It is cheaper to wear men down than keep roads up. When he falls, few care and still fewer pity, for others are eager to fill his place. Should we offer to take the burden from his shoulder, he would regard it as taking the rice from his bowl.—Dr. Joseph Beech in the National Geographic Magazine.

TELL OF LENGTH OF LIFE

Age Secrets of Animals, Trees, Plants, and Even Birds, Easily Penned, traced by the Initiated.

As most people are aware, it is possible to tell the age of a horse by examining its teeth, remarks a writer in London Answers.

The age of a sheep may be known in a similar manner—that is, by its teeth. The number of years a cow has lived is found by a different method. The horns are examined, and the number of rings on these horns tells almost exactly the age of the cow.

Just as the horns indicate the age of the cow, so the development of the antlers helps to calculate the age of animals belonging to the deer family, and the length of life of other horned animals is arrived at in the same way.

The age of many birds can be discovered by examining the spurs.

Trees often live to a very great age, and while they are standing it is a difficult matter to arrive at the age of these; but when they have been cut down the age of the tree may be reckoned by counting the number of rings visible in the section.

It is a comparatively easy matter to learn the age of growing mistletoe, as each shoot sends off two new shoots each year, and by counting the joints from the root to the tip of any branch the number of years the mistletoe has lived may be computed.

Where Some Names Originated.

Christenings in the scientific world sometimes lead to curious results. New species of plants and animals are usually given a form of the name of the discoverer, and the fuchsia, for instance, hides quite prettily in its anglicized pronunciation the fact that it was christened after a gentleman of the name of Fuchs. The naturalist who named the family of Crustacea followed an original plan, having many names to bestow. His wife's name was Caroline. He took the letters of that name, put them in a hat and drew them out again in every combination that would yield a pronounceable name for the shrimps and their cousins. Another naturalist reversed the process. He had a boundless admiration for the sea worms, on which Greek names had been bestowed, and he had also seven daughters. So each daughter, as she arrived was christened after one of the worms.—Chicago Journal.

Many Americans are not aware that Hot Springs is a government reservation. As a matter of fact it is the oldest of the great system of national parks, monuments, reservations and forests which the American people now own. Hot Springs was made a reservation by the government in 1832 in order that the healing properties of the waters might be accessible to all and not exploited by capital. Unfortunately the reservation was made only large enough to take in the springs themselves and the town crowds all about them, when they should be in the center of a great park. There is a free bathhouse, maintained by the government, and other more elaborate ones operated for profit by concessionaires.

Born "Dunce" Made Good.
Robert Clive started life with the sobriquet of "born dunce." His teachers pronounced him "impossible" and requested his parents to remove him from school. At thirty-two he could barely read or write. Yet Clive boasted that some day he would "show everybody." He left home in rags and joined the army. During a critical engagement, and while severely wounded, he was called upon to command 8,000 men. Untrained and ridiculed by them, he nevertheless forced those men forward by sheer grit, and succeeded in defeating 8,000 men at Plassey, thereby laying the foundation of the British empire in India. England erected a statue to his memory at Trafalgar square.

Handsome fabrics are used in the new BON TON Corsets.

FAU Dry Goods Co

WE BELIEVE YOU WILL PREFER SIMCO SALVE

To Any You Have Ever Used

With a group of Spanish influenza, cold on the lungs or in the head, now that it is known that this suffering can be relieved in a short time by the use of antiseptic applications and inhaling the fumes of a remedy sold by F. J. John and called SIMCO SALVE.

SIMCO SALVE when applied over the lungs is soothing and it immediately penetrates through the skin and at the same time gives off antiseptic germ-killing vapors which are inhaled by the patient, who at once experiences refreshing relief. SIMCO SALVE used in the SIMCO way is not to be compared with the old-fashioned internal remedies for these ailments. F. J. John is authorized to return the purchase price if SIMCO SALVE does not do all of the above and more.

Those who have spared no expense but who have been accustomed to the best treatment money could buy now prefer SIMCO SALVE for the treatment and prevention of Spanish influenza, croup and pneumonia. People who try SIMCO SALVE do so on the money back plan; if it fails F. J. John will return the purchase price. Just apply SIMCO SALVE in the SIMCO way at night—no trouble, no inconvenience, enjoy a good night's sleep and feel bright, refreshed and happy in the morning. When you use this improved preparation and experience how wonderfully and quickly you have overcome these ailments you will understand why SIMCO SALVE has so quickly become a most popular remedy. COLD IN THE HEAD RELIEVED AT ONCE

Turpo Checks a Cold in the Head at Once, Prevents it Developing into a More Serious Cold, Relieves Congestion and Inflammation

The right way to treat a cold is to check it at the very beginning. Apply Turpo as soon as it appears as a cold in the head, with the typical running nose, dull headache and sneezing. Turpo is known as the Turpentine Ointment, because turpentine forms one of its principal ingredients. In addition to distilled turpentine there are two other very well known remedies in Turpo—Camphor and Menthol. The three are so combined in a mineral base, as to give best effects for the relief of all colds and congestion.

When Turpo is placed up the nostrils you inhale it immediately, and actually feel it clearing up the secretion in the air passages, and reducing the swelling and congestion. In this way Turpo checks a fresh cold at the very root of the trouble.

For severe colds Turpo is rubbed on the throat and chest. It sinks right through the skin, carrying the remedy to the seat of the inflammation or congestion, and relieving the cold overnight. Turpo is a splendid counter-

irritant—it reduces inflammation and congestion without blistering. It is much better than poultices and plasters for this purpose, and as it has antiseptic properties, it not only relieves the condition, but removes the cause of the trouble. Turpo will not blister the skin or stain the clothing—it is absolutely non-poisonous—a small portion of it swallowed relieves sore throat. It is invaluable for catarrhal conditions, and as an antiseptic balm for cuts and wounds.

Mothers with small children, who have once used Turpo, find that it enables them to check the children's colds immediately, and protect the little ones against the serious troubles which develop from neglected colds. Turpo is a true home remedy. Doctors realize its value and recommend it. Ask your doctor about it. It is sold by all druggists in 30c and 60c jars. Be sure you buy Turpo and not an imitation. Turpo comes in white opal jars with the orange and black label. Your money will be cheerfully refunded if you are not entirely satisfied.

TURPO

For every Cold and Congestion
